Pruning in Midsummer.

It is many years since, from our own

experience, we recommended people to

prune at midsummer, although we knew it

was opposed to the views of many eminent

horticulturists. At that time it was regarded

as a bold innovation on established rules;

and we have often since seen articles to

prove that summer pruning was the wrong

reason by which it is supported; but no

unhappy, very good. It does seem by the

reasoning we have referred to that it ought

to be wrong to prune at that season; but on

the other hand we have the evidence of our

own eyes only to show that it is not

good to prune at that season; but on the

other hand we have the evidence of our

own eyes only to show that it is not

good to prune at that season; but on the
